

# ARS Online Catalogue **User Guide**

# Access

You'll need to fill out an application form to get a login and password for the catalogue.

This ensures that each person with a log in has the authority to place orders on behalf of your company. If an order comes through from an approved contact, it **will** be processed.

For this reason, we don't advise sharing login details and allowing access to people who do not have the authority to place orders on behalf of your company. If you choose to do this, it is at your own risk.

If you forget or misplace your password, just click here and enter your email, and you will be sent a code to reset it.

# ARAssembly search guide

## Endeavour ARSsemblies

### Construction type: ..... Search:

LV ABC Constructions (A01) ..... ENDLVABC  
 LV Bare Constructions (B01) ..... ENDLVBARE  
 11kV ABC Constructions (A21) ..... ENDHVABC  
 11kV Bare Constructions (B21) ..... ENDHVBARE  
 11kV CCT Constructions (C21) ..... ENDHVCCT

 LV UG/OH Terminations ..... AUSLVUGOH  
 11kV Substation Terminations ..... AUSHVSUB  
 11kV UG/OH Terminations ..... AUSHVUGOH

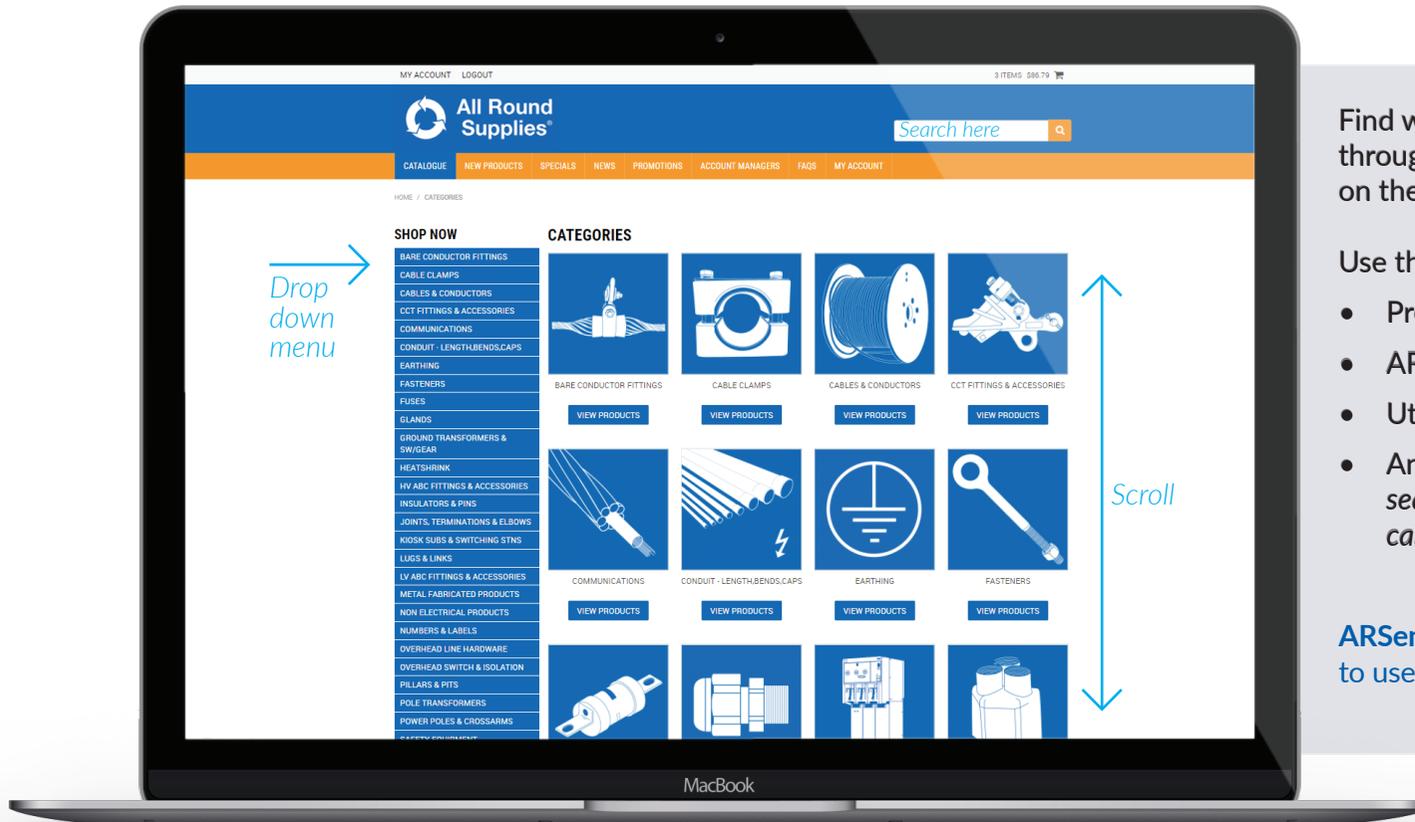

## Essential ARSsemblies

### Construction type: ..... Search:

LV ABC Constructions ..... CELVABC  
 LV Bare Constructions ..... CELVBARE  
 11kV Bare Constructions ..... CEHVBARE  
 11kV CCT Constructions ..... CEHVCCT  
 LV Pillars ..... CELVPILLAR  
 LV Substation Terminations ..... CELVSUB  
 LV UG/OH Terminations ..... CELVUGOH  
 11kV UG/OH Terminations ..... CEHVUGOH

If searching by an EE drawing number, prefix it with 'CEOM' followed by the number you're after, for example: CEOM7101.71

# Finding products

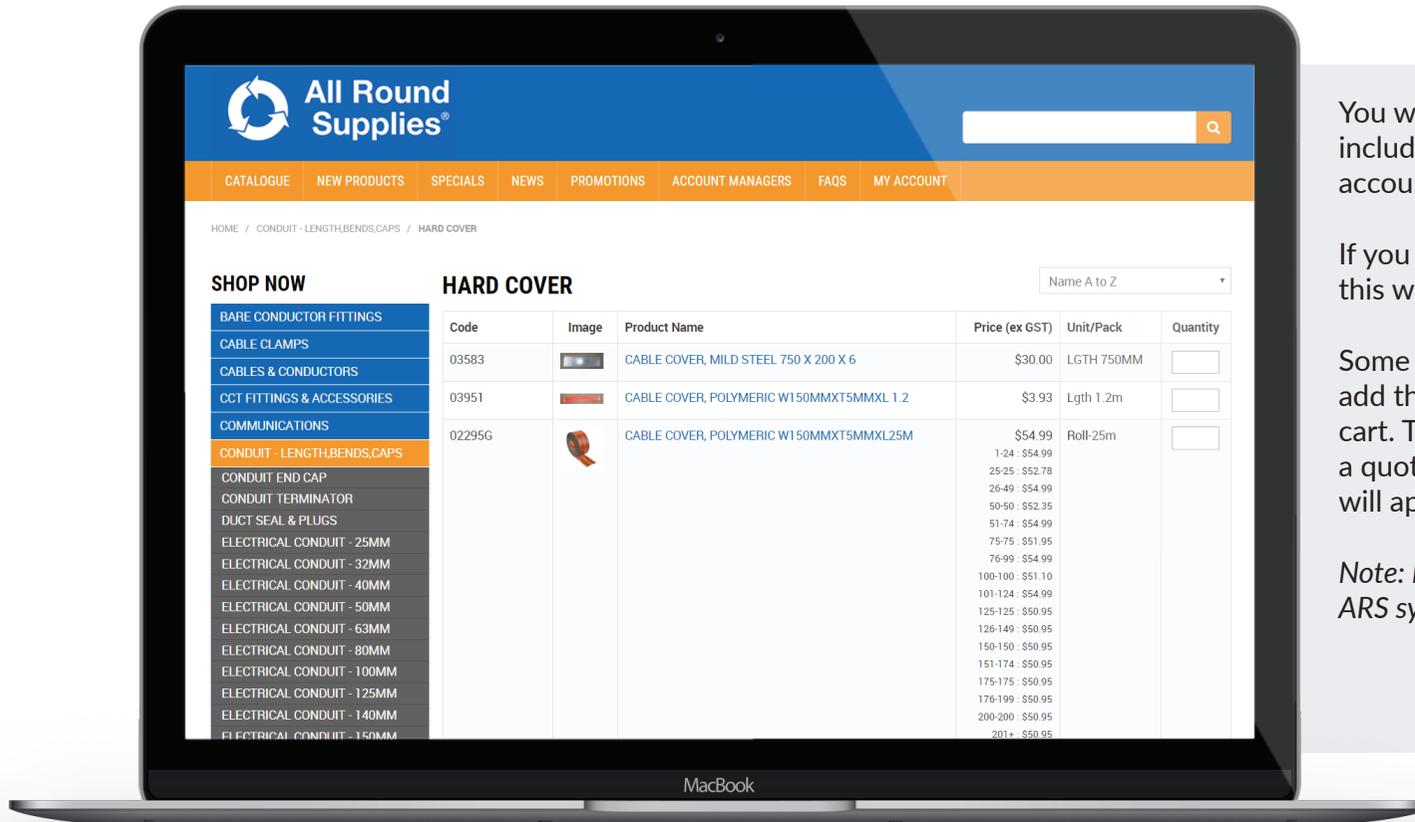

Find what you're looking for by scrolling through the icons, or the drop-down panel on the left.

Use the search bar to search by:

- Product name
- ARS stock code
- Utility stock code
- Any partial term – *for example, a search for 7/3.00 will bring up all cables in that range*

**ARSEMBLIES:** there are certain search terms to use for our ARSembly kits. See appendix.

# Finding prices

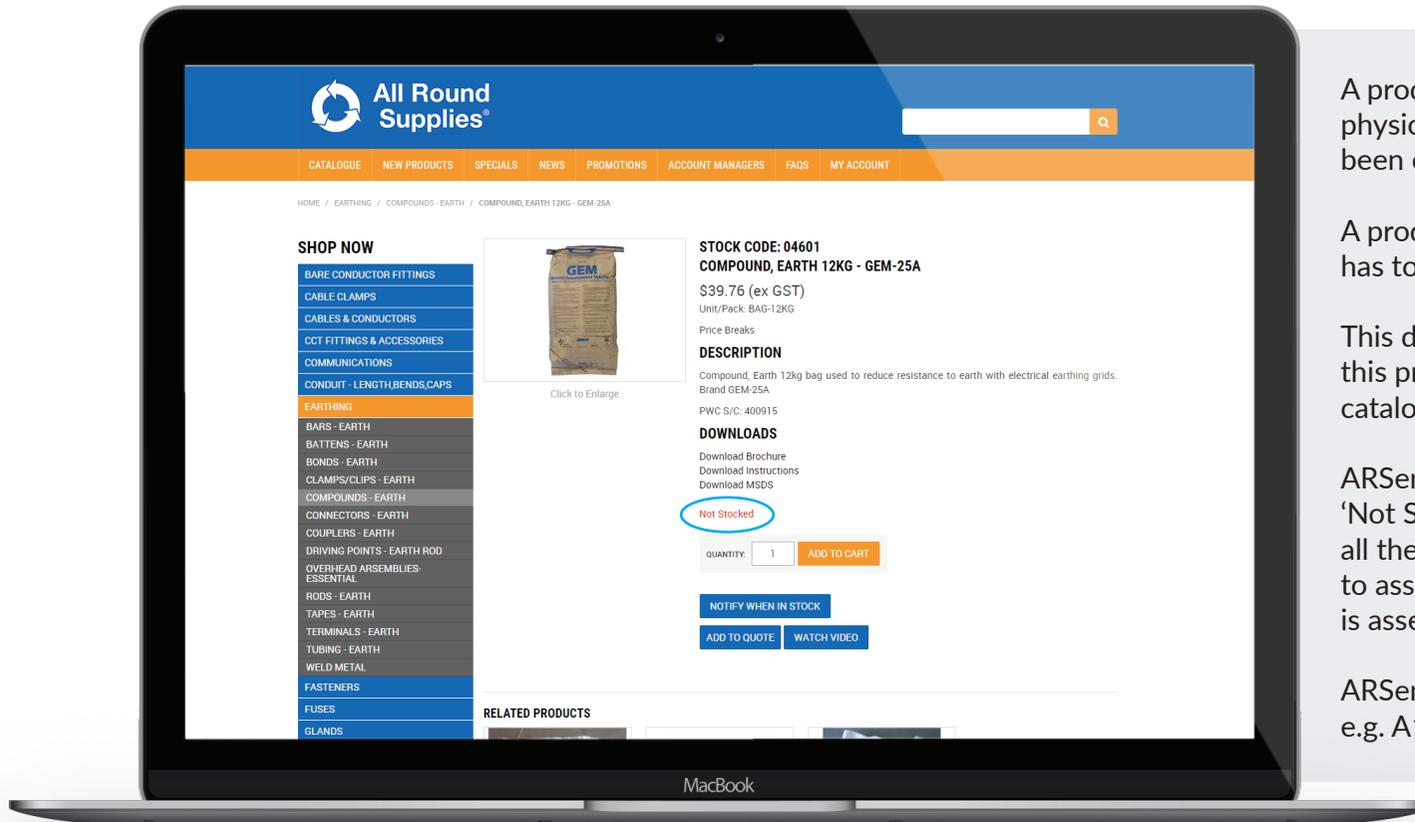

You will be able to see all available pricing, including all price points set for your account.

If you have special pricing, or a price list, this will also be shown here.

Some items will show as 'POA'. You can add these items to a quote, but not to the cart. This is because we'll need to provide a quote for special items where lead times will apply.

*Note: Prices shown are line prices in the ARS system.*

# Finding stock

A product will show as 'In Stock' if it's physically in stock in any branch, or if it has been ordered and is on its way to us.

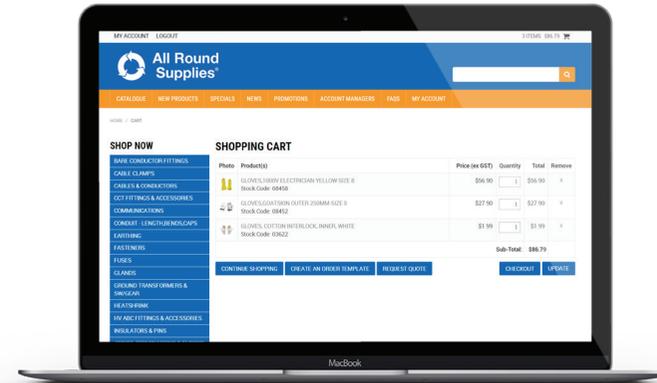

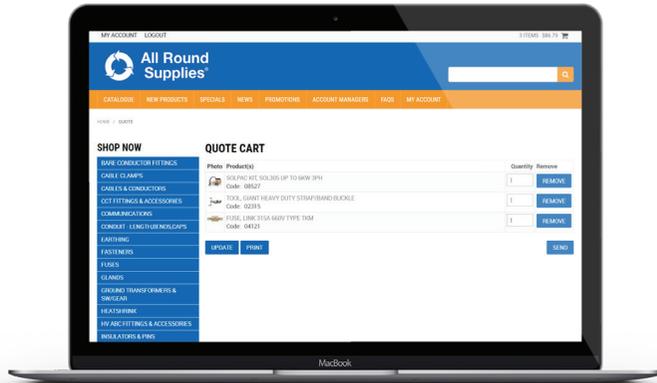

A product will show as 'Not Stocked' if it has to be ordered in, and lead times apply.

This doesn't mean we do not stock this product – everything on our online catalogue is an item that we stock.

ARSEMBLIES will always show as 'Not Stocked', even if we do in fact have all the components on the shelf ready to assemble. This is because each kit is assembled to order.

ARSEMBLIES are shown with an 'A' prefix, e.g. A1071.

# Shopping cart vs quote cart

## Shopping cart

Only items with pricing can be added to the shopping cart (*not POA items*).

At checkout, select either *pick up* or *freight* as your shipping method.

Choose a delivery date – this can't be the current day or a weekend.

We'll process your order.

## Quote cart

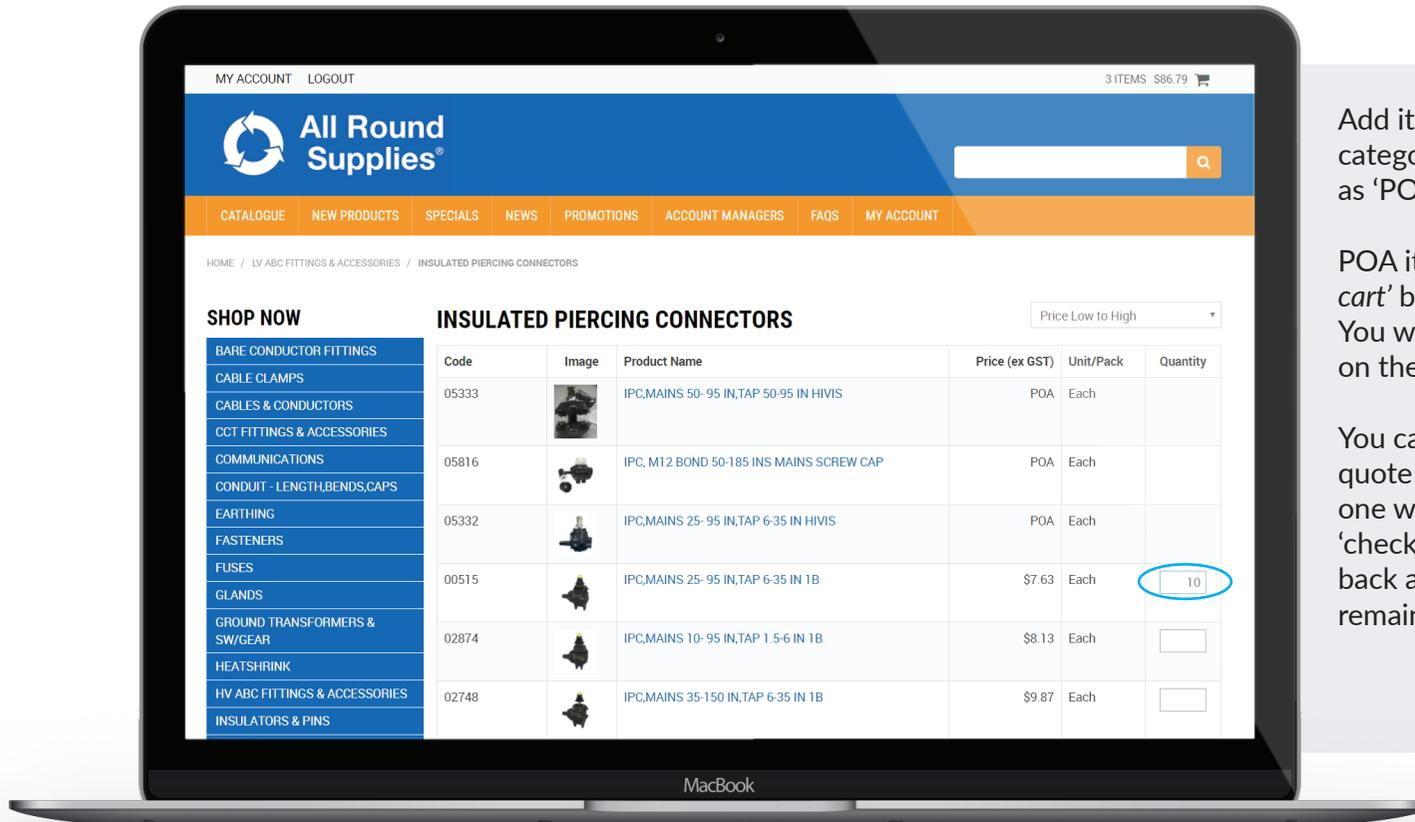

All items can be added to a quote.

Finish your quote and hit *send*. Select either *Quote for Order* or *Quote for Estimate*.

Select a date that you need the quote returned by.

We'll send you a formal return quote with full pricing.

# Add-to-cart and add-to-quote

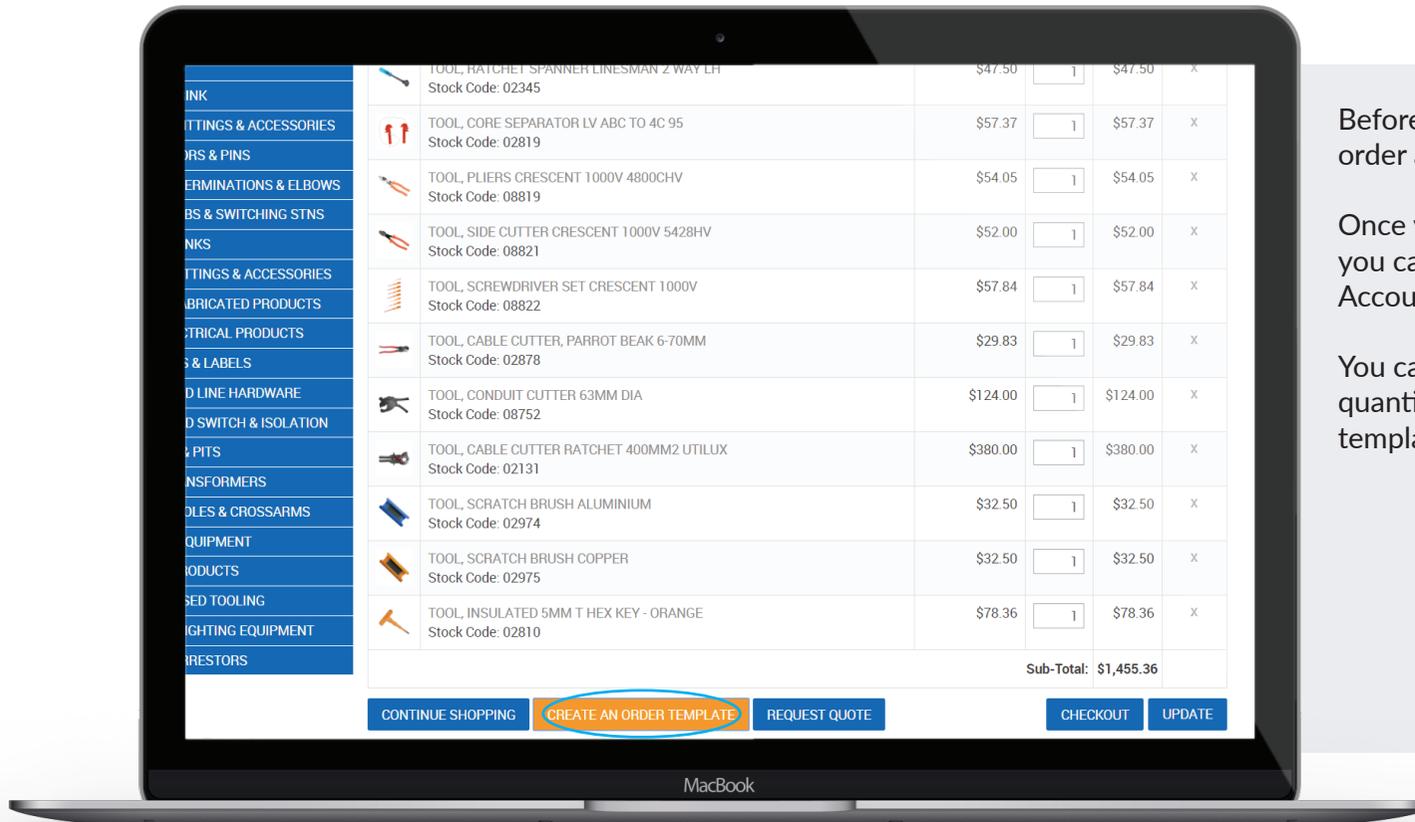

Add items to your cart directly from the category page (unless the product is listed as 'POA').

POA items can be added to your 'quote cart' by clicking the 'Add to Quote' button. You will also be able to specify a quantity on the quote.

You can create a shopping cart and a quote cart at the same time, and neither one will expire until you hit 'send' or 'checkout'. So you can log off and come back a few days later, and everything will remain as you left it.

# Templates

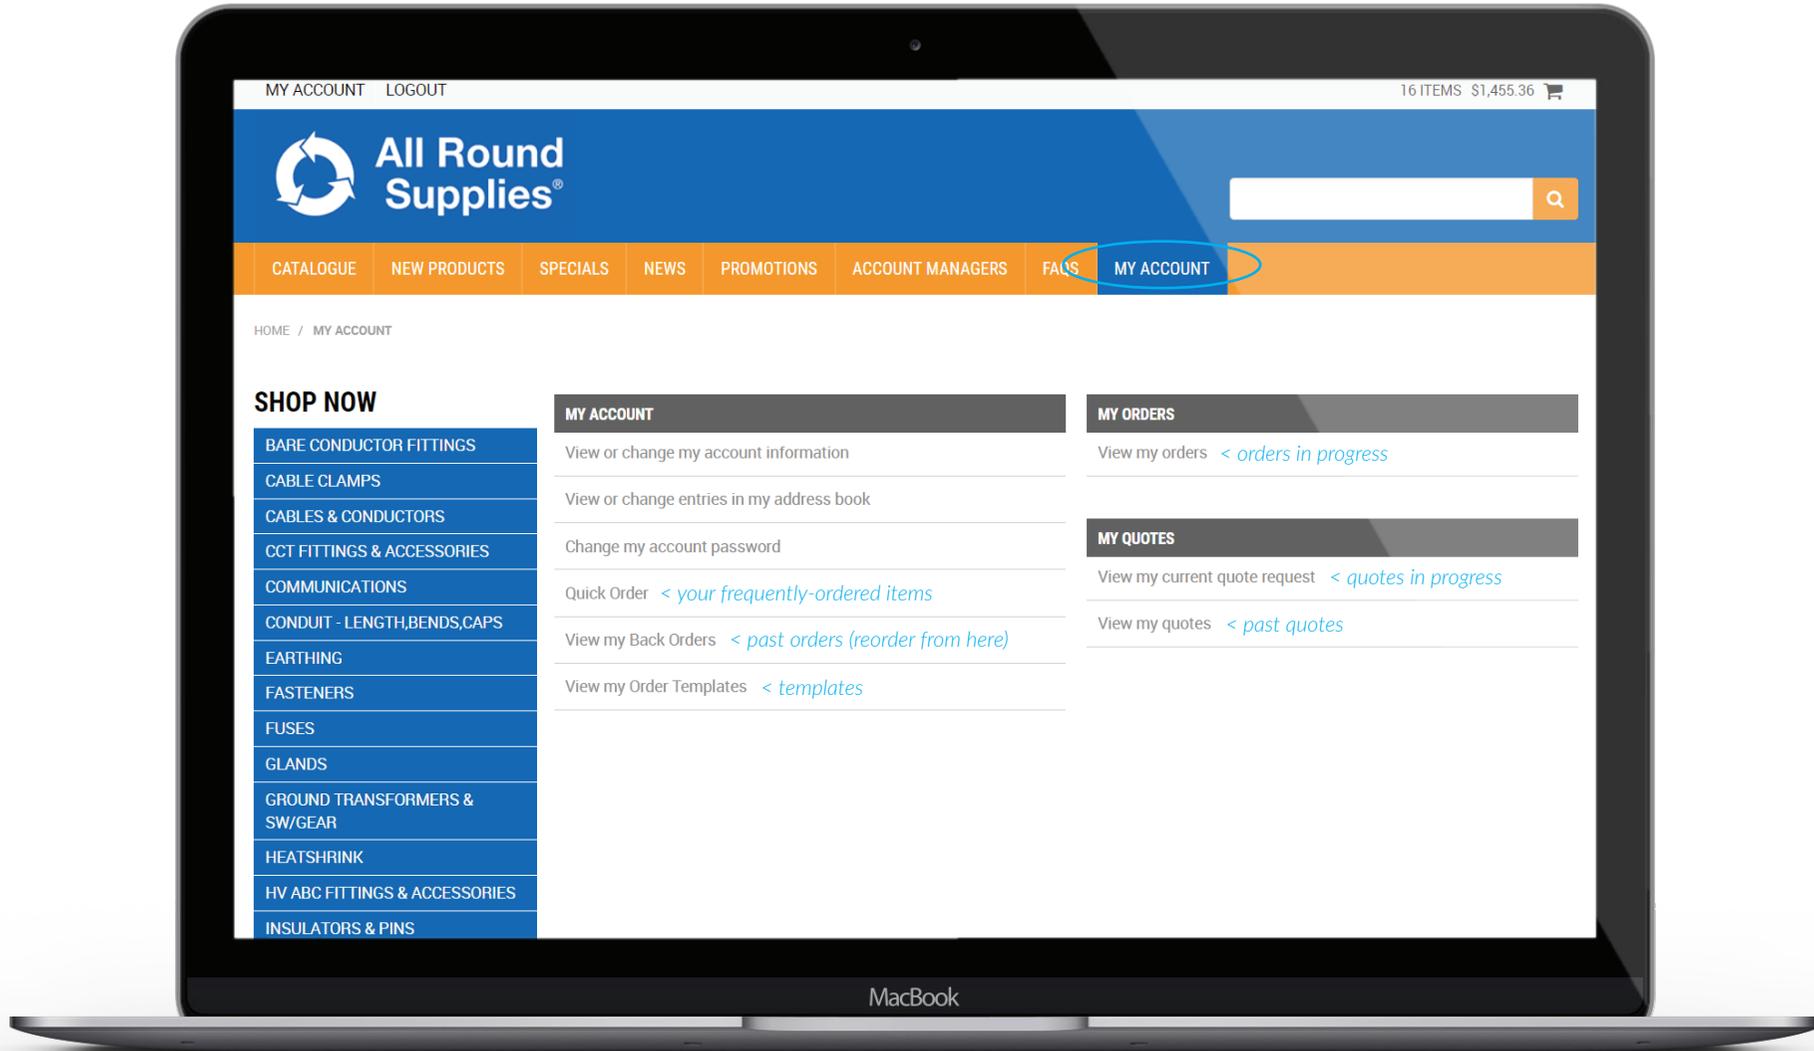

Before you hit *checkout*, you can save your order as a **template to use again**.

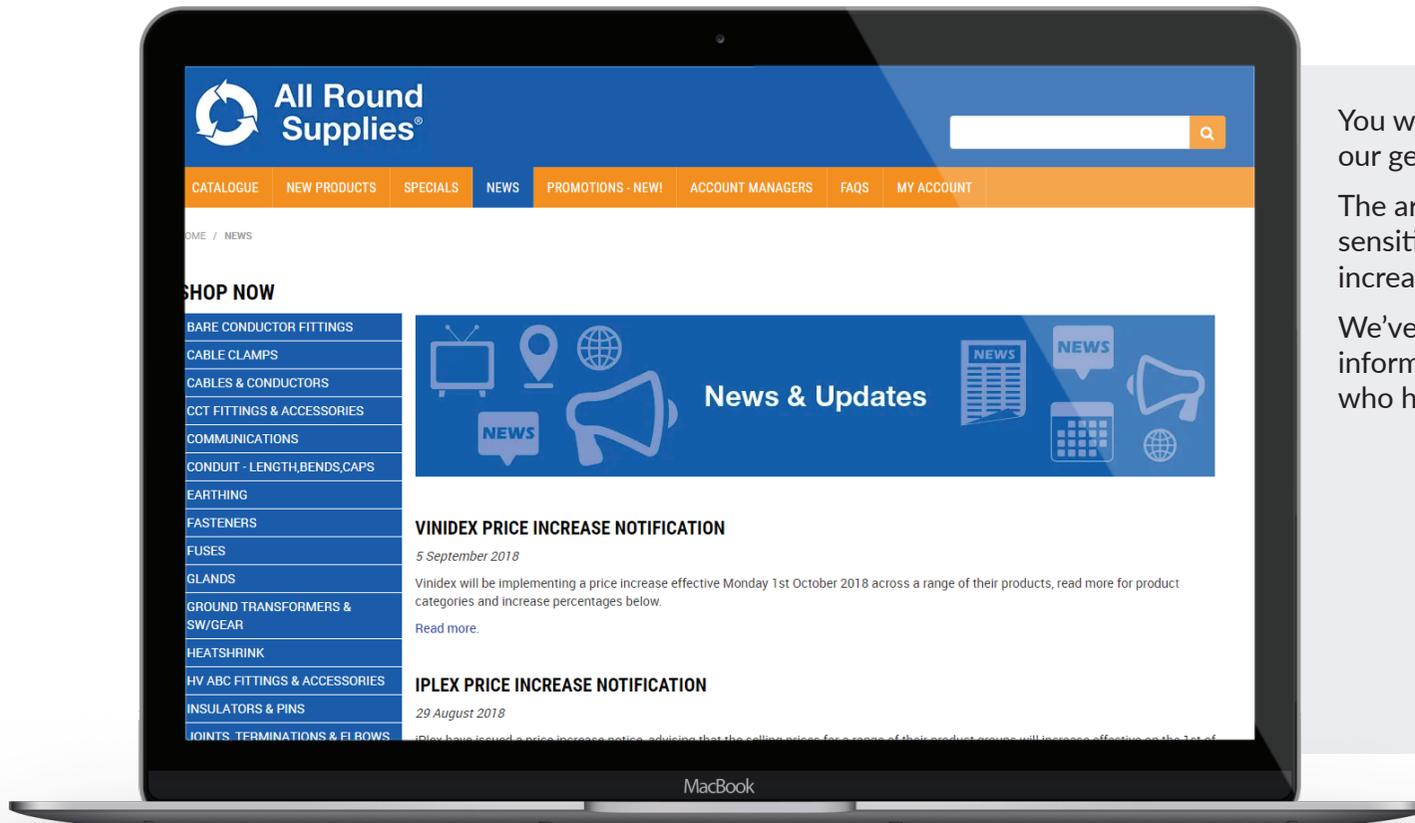

Once you create an order template, you can access it again through the 'My Account' page.

You can add or remove items, or change quantities each time you reorder from the template.

# My account

# News

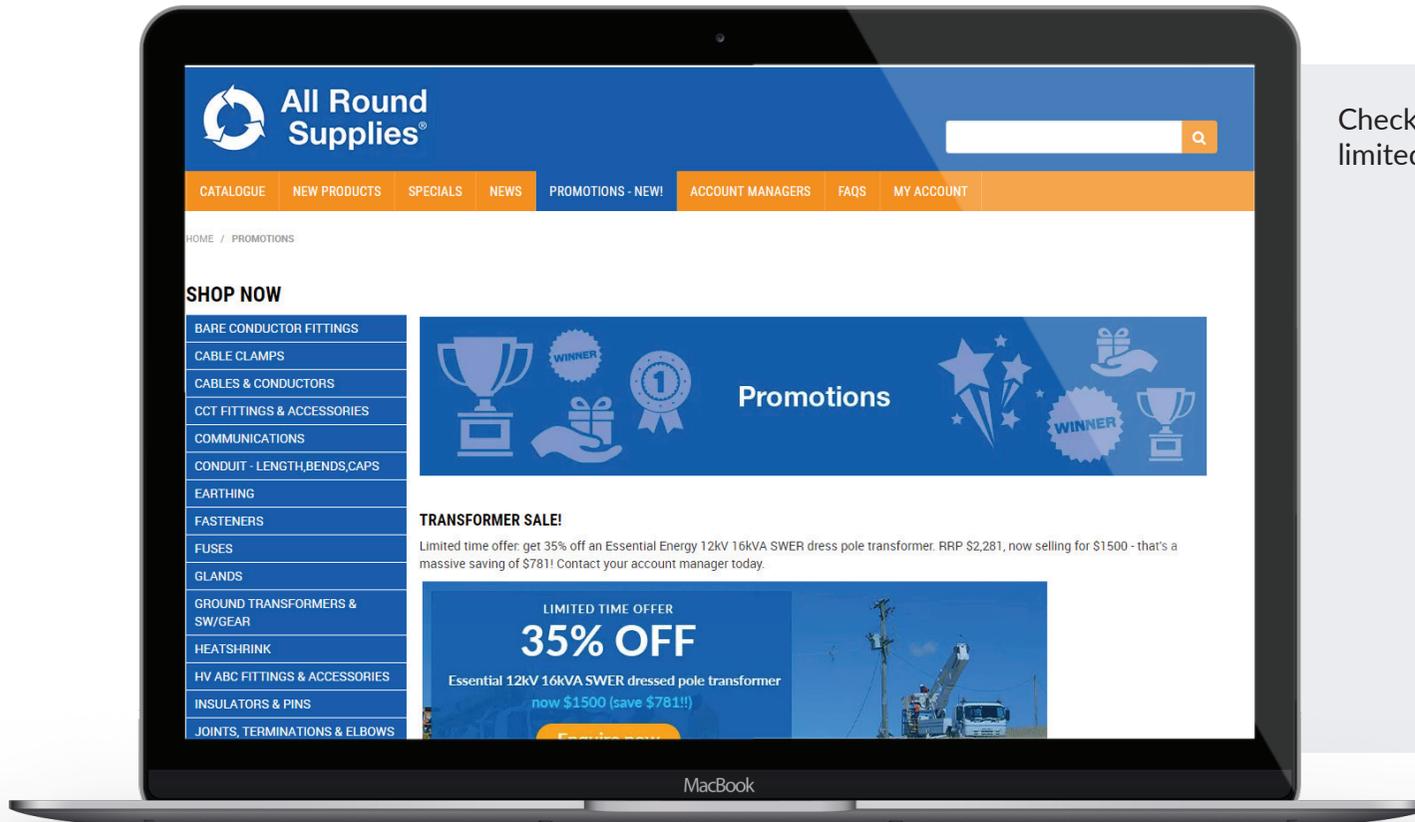

You won't find this information on our general website.

The articles here often contain sensitive information, like pricing increases and utility changes.

We've chosen to only share this information with the valued customers who have access to the online catalogue.

# Promotions

Check in here for one-off discounts, limited-time offers, and competitions.
